

ALGORITHM FOR FINDING MATERIALS FOR PREPARATION AND SELF-CONTROL OF TEST KROK 1

Google Chrome - test.nuph.edu.ua – move down to ТЕСТИ КАФЕДР – каф. Ботаніки – Тести/Тесты/ Tests – your login and password – enter – «Traning. name of topic»

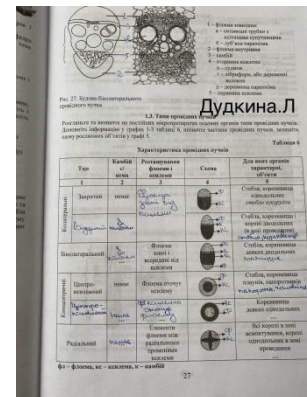

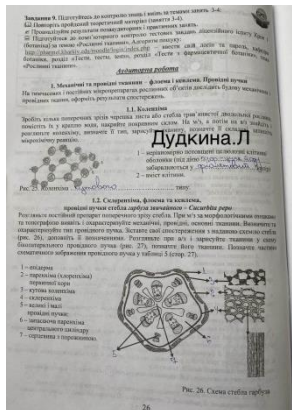

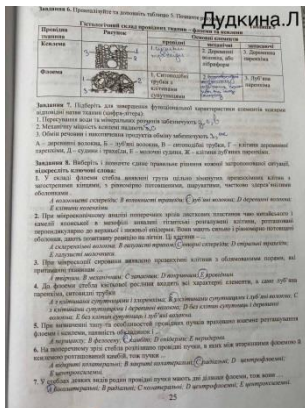

YOU SHOULD SEND TO YOUR TEACHER EMAIL:

1. Photos or screenshots of test results on topics with your name, surname, course, group

Example screenshot or photo

2. Photos of all pages of your notebook which include topic. Your surname, course, group should be visible on pages.

Example screenshot or photo

TASKS
for 1st year students

1. 16.03.20 – 27.03.20

Topic: «Plant tissues and their classification. The structure and location of meristematic, covering, secretory and basic tissues»

Theoretical material: textbook on pharmaceutical botany (green) p. 37-52, 54-56.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 3

- homework - p. 13-14.

- work in the laboratory - p. 14-16 (objects 2, 3, 4, 5)

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 2.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 15-25.

Testing on tests.nuph.edu.ua Topic: “Plant tissues”

2. 30.03.20 – 10.04.20

Topic: «Structure, function and location of mechanical and conductive tissues. Conductive bundles»

Theoretical material: textbook on pharmaceutical botany (green) p. 37-61.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 4

- homework - p. 16-19.

- work in the laboratory - p. 20-21

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 2.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 15-29.

Testing on tests.nuph.edu.ua Topic: “Plant tissues”

3. 13.04.20 – 24.04.20

Topic: «Anatomy of the root. Anatomy of the stem and rhizome of grassy monocots»

Theoretical material: textbook on pharmaceutical botany (green) p. 73-79, 94-96.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 5

- homework - p. 22-23.

- work in the laboratory - p. 24-26.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 3, 4.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 30-34.

Testing on tests.nuph.edu.ua Topic: “Anatomy of vegetative organs”

4. 27.04.20 – 8.05.20

Topic: « Anatomy of the stem and rhizomes of grassy dicots. Anatomy of the arboreal plants’ stem»

Theoretical material: textbook on pharmaceutical botany (green) p. 97-101.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 6

- homework - p. 26-27.

- work in the laboratory - p. 27-30.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 4.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 30-35.

Testing on tests.nuph.edu.ua Topic: “Anatomy of vegetative organs ”

5. 11.05.20 – 22.05.20

Topic: «Anatomy of the leaf. Independent educational-research work»

Theoretical material: textbook on pharmaceutical botany (green) p. 116-121.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 7

- homework - p. 31-32.

- work in the laboratory - p. 32-35.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 6.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 30-35.

Testing on tests.nuph.edu.ua Topic: “Anatomy of vegetative organs”

6. 25.05.20 – 5.06.20

Topic: «Morphology of the vegetative organs (root, shoot, leaf and its parts)»

Theoretical material: textbook on pharmaceutical botany (green) p. 68-72, 82-93, 104-115.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Pharmaceutical botany –Textbook on pharmaceutical botany (green)

Fill in the WORKING NOTEBOOK: Laboratory class № 9

- homework - p. 36-37.

- work in the laboratory - p. 37-40.

Use material of site pharmel.kharkiv.edu.ua: – каф. Ботаніки – Матеріали для самостійної роботи (materials for self-training) – Типові лекції. Типовые лекции. Basic lectures – LECTURE No. 5, 6.

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 36-45.

Testing on tests.nuph.edu.ua Topic: “Morphology of vegetative organs”

7. 8.06.20 – 19.06.20

Topic: «Summary computer control of the Krok-1 tests on the topics of the content modules 1-3 (cell, tissues, anatomy, morphology of vegetative organs)»

Study tests: Test items with explains for preparing for license examination KROK-1 “Pharmacy” p. 4-45.

Testing on tests.nuph.edu.ua **Topic:** «Training. Final modular control. Module 1 (Anatomy+Morphology of vegetative organs)»

8. 22.06.20 – 3.07.20

Final modular test
